**Recognition Level Achieved
By Your School: (select one)**

**Principal Attestation:
(Check below, indicate date)**

Date:

I attest that our school achieved the criteria level indicated and the information included on the following pages is accurate.

To apply for Asthma-Friendly School Recognition, schools must:

- (1) Review the Asthma-Friendly School Application and implement criteria for the desired recognition level.
- (2) Complete the application and submit by Friday April 13, 2018 to: FLAsthmaCoalition@gmail.com
- (3) Email copies of certificates for Asthma Basics trainings completed
- (4) Email copy of completed [OAS Student Tracker](#) (Excel), if applying for Silver or above
- (5) Email copies of policies for criterion 9, if applying for Platinum

Criterion Specific Verification: Check where complete and provide requested information.

Bronze

Criterion 1: Asthma Leadership Team Established

Our school has an Asthma Champion who leads our school's Asthma Leadership Team. (Note: This team may align with the existing school wellness team or other similar school health and or safety team).

Name of Asthma Champion/Team Leader:

Asthma Champion/Team Leader's Email:

Criterion 2: Professional Development for Faculty and Staff - ALA's Asthma Basics

Our faculty and staff completed the American Lung Association (ALA) "Asthma Basics" (free online course).

Number of staff who completed the training (attach copies of certificates):

Percentage of staff who completed the training: (25% Bronze, 50% Silver, 75% Gold & Platinum)

Note: RNs earn 7 CEUs by taking the free online AAFA Course - [Asthma Management and Education Online \(AME-O\)](#). This is a requirement of RNs supervising school health staff. (Attach copies of certificates).

Criterion 3: Access to Medications

Per Section 1002.20 (3)(h), Florida Statutes, our school policy enables students with parent and physician approval to carry and self-administer metered dose inhalers and all students reported to have asthma have immediate access to appropriate medications.

Criterion 4: Student Centered Asthma Support - Asthma Action Plans and Asthma Action Plan Policy

Number of students with known asthma

Number of students with Asthma Action Plans

Percent of students with asthma that have Asthma Action Plans (25% Bronze, 50% Silver, 75% Gold & Platinum)

Our school has a standard emergency protocol for any student that has an asthma episode (even if they do not have an Asthma Action Plan on file).

Our school staff maintains a positive partnership through effective communication between parents, students, pediatricians, and other primary care providers.

Referrals to medical care and medical insurance are made for students with asthma who are in need.

Criterion 5: Asthma Awareness: Posters "[Steps to Follow for an Asthma Episode](#)" and "[Healthy Air Walkthrough - Classroom](#)" and elementary school video "[What is Asthma?](#)"

Our school displays the recommended posters in one or more high traffic areas (health room, cafeteria, main hallways, gym, media center). Recommended posters are: "Steps to Follow for an Asthma Episode" and "Healthy Air Walkthrough For an Asthma-Friendly Classroom".

Our school has played the "What is Asthma?" video for our elementary students (if applicable).

Criterion 6: Physical Education & Activity Opportunities for Students with Asthma - [AirNow.gov](#)

Students with asthma are given the opportunity to participate in physical education fully, safely, and in accordance with the students' Asthma Action Plan and Individualized Health Care Plan.

Our PE teacher has completed ALA's Asthma Basics.

Our PE teacher has signed up for Airnow.gov alerts.

Our PE teacher has a plan for indoor activities for students with asthma on poor air quality days.

Silver

Criterion 7: Asthma Self-Management Education (ASME) provided to students with asthma - ALA' Open Airways for Schools" and "Asthma Basics"

Grades 3-5 ALA's "Open Airways for Schools" (OAS) and Grades 6-12 ALA's "Asthma Basics". Note: please submit completed OAS Student Tracker (see link below) by email.

Percent of 3rd, 4th and 5th graders with asthma who completed OAS. Submit [OAS student tracker](#).

(50% Silver, 75% Gold & Platinum)

Percent of 6th, 7th, 8th, 9th, 10th, 11th and 12th graders with asthma who completed [Asthma Basics](#)

(50% Silver, 75% Gold & Platinum)

Criterion 8: Asthma Education for Parents & Caregivers: ALA's "Asthma Basics"

Parents and caregivers were provided an opportunity to participate in the ALA's Asthma Basics within the past 24 months.

Date Asthma Basics offered:

Number of Participants:

Gold

Criterion 9: Healthy Schools Environment & Indoor Air Quality (IAQ) Program: "EPA's Tools for Schools Action Kit"

The Following EPA's Tools for Schools are implemented in our School:

	Implemented
Animals in the classroom policy	
Integrated pest management program	
Anti-idling policy	
Preventive maintenance and operations policy	
Construction/renovation policy	
Microbial management policy	
Staff indoor air quality education policy	

Platinum

Criterion 10: Comprehensive Asthma Policy and District Level Tobacco Free Schools

Date District Level Tobacco-Free Schools
Policy Established:

Date Comprehensive Asthma Policy
Established:

Comprehensive Asthma Policies Include:

	School Policy	District Policy
Asthma leadership team		
Professional asthma development for faculty and staff		
Access to medications		
Student centered asthma support		
Asthma awareness posters and video		
P.E. opportunities for students with asthma		
Asthma self-management education (ASME) for students with asthma		
Asthma education for parents and caregivers		
Healthy school environment indoor air quality program (see criterion #9)		
Referral to an asthma home visiting program for students whose asthma is poorly controlled		

Resources:

[How Asthma Friendly is Your School?](#) A checklist from the National Heart Lung and Blood Institute.

American Association of School Administrators: [Asthma Communication Toolkit](#). This site includes resources for communicating the benefits of asthma management and building partnerships with school administrators, superintendents and school boards.

National Asthma Control Initiative: [Making Asthma a Priority for Schools and Childcare Centers](#)

[School Health Index](#): This Self-Assessment & Planning Guide enables schools to:

- Identify strengths and weaknesses of health and safety policies and programs
- Develop an action plan for improving student health and incorporate it into the School Improvement Plan
- Engage teachers, parents, students, and the community in promoting health-enhancing behaviors

Centers for Disease Control and Prevention: [Asthma and Schools](#)

[Initiating Change: Creating an Asthma-Friendly School](#): This site includes pod casts and presentations to help you raise awareness about what it takes to create an asthma-friendly school.

[Asthma Control: Are You Doing YOUR Part? An Update for School Nurses in School-based Asthma Management](#):

This webinar provides school nurses with information on the six guidelines-based priority messages from the NAEPP's Guidelines Implementation Panel (GIP) Report, as well as advances in school-based asthma management and techniques to overcome barriers to controlling asthma in the school setting. Hosted by Dr. Stephen Conley, the American School Health Association's (ASHA) Executive Director, panelists include Dr. Lani Wheeler, Pediatric Asthma Specialist; Dr. Benjamin Francisco, Director of Asthma Ready® Communities; and Deborah Cook, RN, Director of Health Services, Kennett Public Schools, Missouri.

[NAEPP: Asthma Basics for Schools](#): These slides provide updated information about the problem of asthma among school-age youth, the causes, signs and symptoms of asthma, the impact of asthma on student learning, asthma triggers, the control of asthma, assessing how asthma-friendly is your school, and how to handle an asthma episode.

Training:

American Lung Association's (ALA) FREE On-line [Asthma Basics](#) (For Faculty, Staff, Parents, Adolescents)

American Lung Association's (ALA) [Open Airways for Schools](#) Curriculum (required for Silver, Gold and Platinum applications). Submit the [OAS Student Tracker](#). (Refer to the [Data Coding Guide for Schools](#) for assistance).

Asthma and Allergy Foundation of America's (AAFA) [Asthma Management and Education Training](#) (for RNs) (Please use FL-DOH as the group code and AAFA as the organization code.)

This course recognizes the critical role allied health professionals play in educating and caring for patients with asthma. Course content conforms with the National Asthma Education and Prevention Program (NAEPP) 2007 Expert Panel Report 3: Guidelines for the Diagnosis and Management of Asthma. This free program contains 12 modules of self-paced study. Upon completion of the full course, nurses and Respiratory Therapists will be eligible to earn 7 continuing education credits from the American Nurses' Credentialing Center's Commission on Accreditation (ANCC) and the American Association for Respiratory Care (AARC).

Policy:

[ALA's Asthma-Friendly School Initiative Toolkit](#): Sample School Medication Policy, Sample Field Trip Medication Policy and other policy language.

Environmental Protection Agency's (EPA) [Tools for Schools Action Kit](#) shows schools how to carry out a practical plan to improve indoor air problems at little- or no-cost using straightforward activities and in-house staff.
