Hospital Administrator's Name:

Hospital Administrator's Email:

Asthma Team Lead's Name:

Asthma Team Lead's Email:

Asthma Team Members (Please type name and title, then select profession):

Hospital Administrator's Attestation:

I attest that our hospital achieved the criteria indicated and the information included on the following pages is accurate.

Date:

Asthma-friendly Hospital Recertification Criteria

Criterion 1: Asthma Quality Improvement Process

The hospital implements an asthma quality-improvement process, following EPR-3 guidelines, to improve the quality of care and health outcomes of moderate/severe asthmatic patients.

Description of Quality Improvement (QI) Process

Criterion 2: Tobacco Cessation Education

All patients with persistent asthma are provided information about, or referred to, tobacco cessation.

Description of tobacco cessation education or referral(s) provided

Criterion 3: Professional Development

Any new asthma team lead will need to complete the [Asthma Management and Education Online Course \(AME-O\)](#). Upon completion, attach the certificate to the application.

Hospital pulmonologists and at least one of the other specialties will need to complete the "Targeting Asthma: Community-Based Strategies to Enhance Care Access for Children, Adolescents, and Adults – Focus on Social Determinants of Health and Inequities in Care" training available at <https://www.resinsightslive.com>. A free account must be created, which will allow access to 1 CME credit. This resource will be available until May 31st, 2023. Upon completion, attach the certificate to the application.

Resources

Criterion 1:

- **Agency for Healthcare Research and Quality: Asthma Care Quality Improvement (AHRQ): A Resource Guide and Workbook for State Action**

The Agency for Healthcare Research and Quality (AHRQ) has developed Asthma Care Quality Improvement: A Resource Guide for State Action and its companion workbook, Asthma Care Quality Improvement: A Workbook for State Action. These materials were designed in partnership with the Council of State Governments to help states assess the quality of asthma care and create quality improvement strategies.

<http://www.ahrq.gov/sites/default/files/wysiwyg/research/findings/nhqrd/nhq02/asthwork.pdf>

- **NAEPP Guidelines for the Diagnosis and Management of Asthma (EPR-3)**

The National Asthma Education and Prevention Program (NAEPP), coordinated by the National Heart, Lung, and Blood Institute (NHLBI), convened an expert panel in 2007 to complete a systematic review of the published medical literature and to update the asthma guidelines to reflect the latest scientific advances. This document provides new guidance for selecting treatment based on a patient's individual needs and level of asthma control. The guidelines emphasize that while asthma can be controlled, the condition can change over time and differs among individuals and by age groups, emphasizing the importance of regularly monitoring the patient's level of asthma control and adjusting treatment as needed.

Criterion 3:

- **Asthma and Allergy Foundation of America's (AAFA) Asthma Management and Education Training**

(Please contact the Florida Asthma Coalition to request access to this course) This course recognizes the critical role allied health professionals play in educating and caring for patients with asthma. Course content conforms with the National Asthma Education and Prevention Program (NAEPP) 2007 Expert Panel Report 3: Guidelines for the Diagnosis and Management of Asthma. This free program contains 11 modules of self-paced study. Upon completion of the full course, team lead will be eligible to earn 8.75 continuing education credits from the American Nurses' Credentialing Center's Commission on Accreditation (ANCC) and the American Association for Respiratory Care (AARC). <https://www.aafa.org/continuing-education-for-health-care-professionals/>

- **Targeting Asthma: Community-Based Strategies to Enhance Care Access for Children, Adolescents, and Adults - Focus on Social Determinants of Health and Inequities in Care**

ResInsightsLive.com is an online CME learning platform that includes all of the features of a live medical conference, including live streaming video lectures, panel discussions and case presentations as well as interactive activities such as real-time question and answer sessions with top faculty and other participants. Please note that 1 CME will be available upon completion of the training. This resource will be available until May 31st, 2023. <https://www.resinsightslive.com>

Additional resources:

- **Mobile Asthma Apps**

Asthma management apps are available for various age groups, the purpose of the apps is to assist individuals with asthma in managing their asthma by using monitoring and measurement tools.

<http://floridaasthmacoalition.com/caregivers/mobile-asthma-apps/>

- **Asthma Basics**

The American Lung Association's Asthma Basics course is a free one-hour interactive online learning module designed to help people learn more about asthma. This course is ideal for frontline healthcare professionals, such as school nurses or community health workers, as well as individuals with asthma, parents of children with asthma, and co-workers, friends and family who want to learn more about asthma.

<http://www.lung.org/lung-health-and-diseases/lung-disease-lookup/asthma/asthma-education-advocacy/asthma-basics.html>

- **Asthma Self-Management Education: A Compilation of Selected Resources**

This link from the Centers of Disease Control and Prevention (CDC) provides resources for healthcare professionals on several asthma topics

<https://www.cdc.gov/asthma/healthcare.html>

- **Environmental Protection Agency: Asthma Home Environment Checklist**

The EPA's asthma home environment checklist guides individuals with asthma and home care visitors in identifying environmental asthma triggers most commonly found in homes. It includes sections on the building, home interior and room interior and provides low-cost action steps for remediation.
